

### **ICC Conclave on**

### **Corporate Governance in Financial Markets**

**10:30 AM March 17, 2023**

**Hotel Holiday Home , Ranchi**

### **Programme**

Improving corporate governance contributes to the development of the public and private capital markets. Poor standards of governance, particularly in the area of transparency and disclosure, have been a major factor contributing to instability in global financial markets and was evident in the 2008 financial crisis. But well governed corporate entities get access to government as well as private funding, leading to higher profitability. There is a need to discuss the Corporate Governance structures, segment wise, for Banking, Insurance and Capital Markets.

This conference aims to dwell on the ideal Corporate Governance Structure in a Bank, an Investing Company and an Insurance Company and draw out the similarities and differences across the BFSI vertical.
