

ICC Conclave on

Exploring ESG: Corporate Governance for Social Change

10:30 AM January 18, 2023

Hotel Pal Heights, Bhubaneswar

Programme

Environmental criteria consider how a company performs as a steward of nature. Social criteria examine how it manages relationships with employees, suppliers, customers, and the communities where it operates. Governance deals with a company's leadership, executive pay structure, audits, internal controls, and shareholder rights. From investing in sustainable manufacturing and clean energy to improving diversity and inclusion, revived calls for pro-ESG reform have left many boards scrambling to keep up with the times and manage investor, customer and employee expectations. How can CEOs and boards balance ESG concerns while managing the evolving expectations of all stakeholders?

This conference aims to develop a new type of index or benchmark that measures not only a company's performance financially but its effect on and contribution to the world on an environmental and social level.
