

CII has been organizing the *CII Governance Series*, a series of interactive breakfast meetings with CEOs focusing on governance, accountability, transparency, ethics, compliance and trust - fostering a culture of good governance. India is a strong emerging force on the global map and its sustainable growth can only be built on the foundation that encourages transparency, accountability and good governance. As India aspires to its rightful position as a global leader, the focus is on Corporate India and on Indian markets. Corporate India has a key role in nation building and corporate governance is an integral part of the broader governance of the country. Against this backdrop, the *CII Governance Series* will discuss pertinent and contemporary governance issues concerning Indian Industry.
