<b>Brief Write-up on Event</b>  (maximum 250 words)	<p><b><u>Introduction</u></b></p> <p>The corporate world as a whole is in the process of acquiring a moral conscience. The new and emerging concepts in management like corporate governance, business ethics and corporate social responsibility are some of the expressions through which this emerging ethical instinct in the corporate world is trying to express or embody itself in the corporate life. However effective implementation of an ethical ideal or concept requires two factors: creating an ethical consciousness and promoting ethical conduct and behaviour. But for the outer conduct and behaviour to be authentic, sincere and effective, it has to be a spontaneous expression of a corresponding inner state of consciousness. This workshop explores the concept and practice of corporate governance in an integral, holistic and consciousness perspective. In our integral perspective, the ideal of corporate governance is to create a corporate consciousness which leads to self-governance.</p> <p><b><u>Programme Objectives:</u></b></p> <ul style="list-style-type: none"><li>➤ To practice the basic concepts Governance through Consciousness</li><li>➤ To implement those concepts in their day-to-day working life to deal effectively in situations of stress and strain</li><li>➤ To explore an inward and integral approach to present day business based on the principle of growth of consciousness</li></ul> <p><b><u>Methodology :</u></b></p> <p>SAFIM methodology is based on judicious blend of theory and practice with audio-visual presentation, live demonstration, questionnaire based interaction, case studies, video case discussion and analysis, games and activities.</p> <p><b><u>Who can Participate:</u></b></p> <p>Mid /Sr. executives of any corporate house, fellow of any professional Institute.</p>
